### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

The rejection of the prior office action, paper no. 4, is maintained and incorporated herein by reference.

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gatts.

Gatts discloses classifying the body of a person (col. 7, lines 1-6), prescribing a first aerobic routine for the person (col. 7, lines 1-61).

As for the different species of exercises in the claims, they would be obvious variants to the exercises prescribed by Gatts, as Gatts discloses a plurality of exercises, and adding different exercises would achieve the same result.

Applicant's arguments filed 2/26/04 have been fully considered but they are not persuasive.

As to the applicant's arguments.

1. Gatts mentions endomorph, mesomorph, and ectomorph, as well as percent overweight or underweight, body temperature, each of which are different from those claimed by applicant.

Art Unit: 3764

2. Nothing claimed by applicants suggest any measurement of one's physical condition, aerobic capacity, ... fitness level of any sort, only measurements are girth measurements..

3. Applicant's invention is not intended as a health test.

As to 1) above, the applicant is not claiming any specific type of body types, just different ones, therefore the body types, and/or how they are achieved of Gatts reads on the broadly written claims.

As to 2) above, though the claims do not mention the measuring of a physical condition, they also do the preclude the measuring of a physical condition, so Gatts achieving of the body types reads on the claims.

As to 3) above, Gatts device reads on the claims as written, so any intended use thereof is secondary.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Art Unit: 3764

Applicant's arguments filed 2/26/04 have been fully considered but they are not persuasive.
